

G20 GERMANY 2017

German G20 Presidency 2017 – Key events & milestones Summary of results and outputs of G20 agricultural events

MACS-G20 Potsdam, November 12 – 15 2017

Federal Ministry
of Food
and Agriculture

G20 and agriculture

- G20: 60 percent of all agricultural land
 - G20: 80 percent of world trade in agricultural products
 - Agriculture is key to feeding the world (SDG 2: No Hunger)
 - It contributes to other SDGs (e. g. health, peace and resource use related SDGs)
- Responsibility of G20 for Global Food Security and Agriculture

G20 Agriculture Ministerial

Priorities and outcomes: Agriculture and Water

- Agriculture and water as an increasingly important challenge to global food security
- Agenda 2030 and UNFCCC Paris Agreement as major frameworks
- measures in the fields of:
 - water architecture and governance,
 - water quality,
 - water-use efficiency,
 - resilience and access to water including the reduction of food losses and waste.

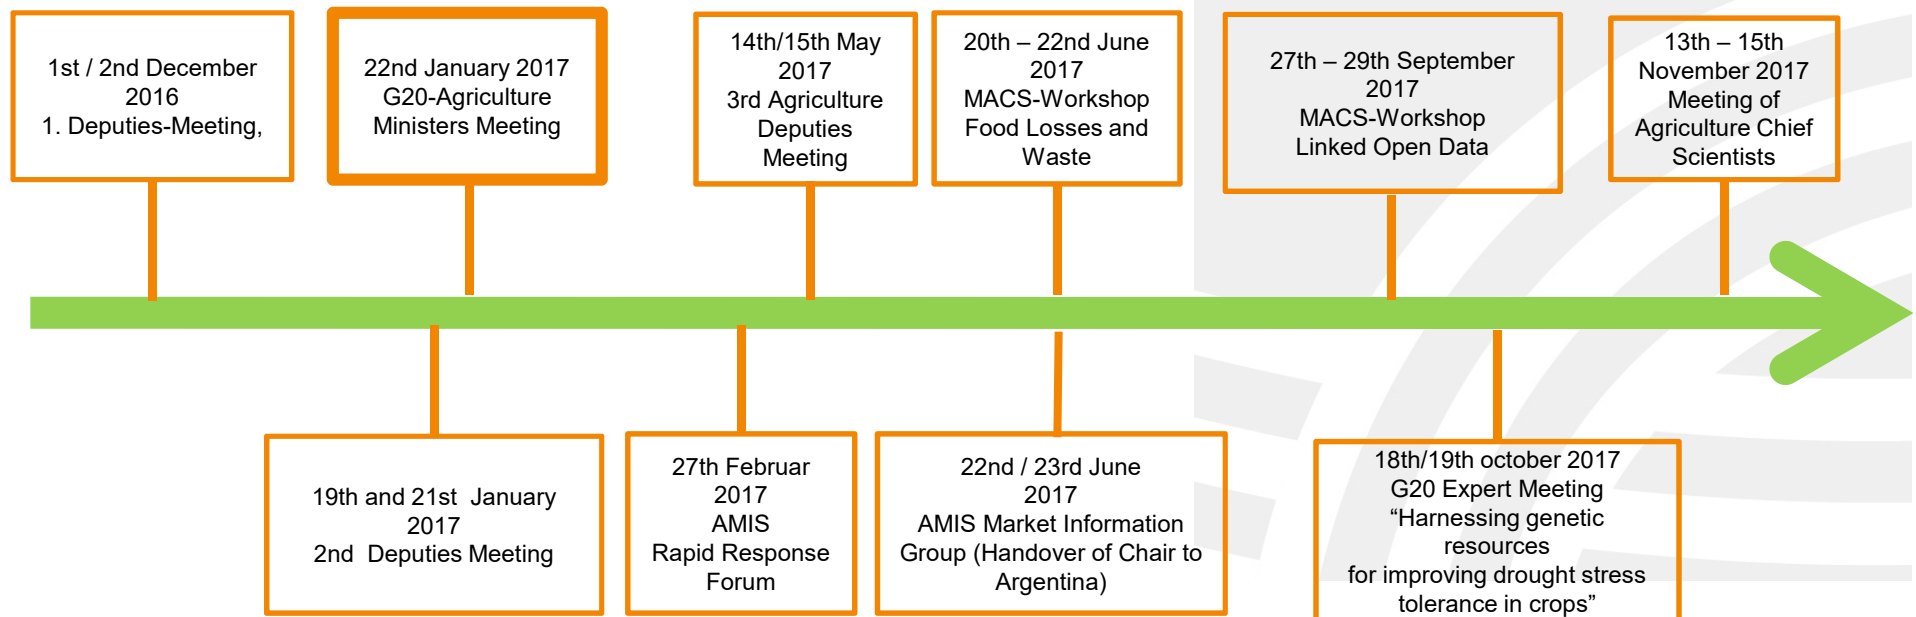

G20 Agriculture Ministerial Priorities and outcomes:

- Information and communication technologies in agriculture
- Combatting antimicrobial resistances
- Trade and investment
- Research cooperation and knowledge sharing
- Strengthening the Agriculture Market Information System (AMIS)

G20 Agriculture track: Preparing and follow-up events

Summary

- G20 Leaders highlighted the importance of agriculture for food security: “...we are committed to increase agricultural productivity and resilience in a sustainable manner,...”
- Research and development cooperation and exchange play a key role
- MACS is an important element of the G20 Agriculture Workstream
